

ICCA Update July 2017 by Margaret Vaughn

FINALLY A BUDGET!

Legislators were called into a 3 week special session and after a nearly 3 year stalemate, Illinois finally passed a budget last week. Though the Governor vetoed it, enough GOP members crossed over to override the veto. To bring in additional revenues, individual (3.75 to 4.95%, which is less than 2014 rates) and corporate (5.25 to 7 %) income tax rates were increased (which is the same as 2014). Unless something drastic passed, the state was on a verge of financial collapse and local units of government would have been hit hard.

PRESENTATION AT NWBOCA'S JUNE MEETING

I was the guest speaker at the June meeting of NWBOCA and did a PowerPoint on an *“Overview of State Government and How to Impact the Legislative Process”*. The presentation was very well received and most people said they had no idea of all the complex interworkings of the process. Let me know if you would like me to speak at one of your monthly meetings or at the SBOC School next spring. I will be doing a webinar for the Roofing Contractors on the topic at 10:00 am on Wednesday, Aug. 2nd that is free and open to building officials.

HB 732 – ROOFING BILL – EMAILS TO GOV'S OFFICE NEEDED

HB 732 was sent to the Governor on June 27th. The legislation sponsored by Rep Dan Burke (D-Chicago) and Sen. Iris Martinez (D-Chicago) would limit scope of what a building owner's employees could perform on commercial and industrial roofs without a license to just “roof repair” as defined by the ICC. Reroofs, Roof Replacement and Torching would have to be done through a licensed contractor. . Though the bill has no opposition it is still opposed by the Governor and he vetoed a similar bill last year. **Letters and emails of support for the bill can be sent to the attention of Andrew Perkins c/o Office of the Governor 207 Statehouse Springfield, IL 62706. Andrew's email is andrew.perkins@illinois.gov.**

HB 1848 – DILAPIDATED BUILDINGS

We hope to work this summer with Rep. Hurly on the process of marking unsafe structures so it is consistent throughout the state and in line with the International Property Manteca Code. She had introduced HB 1848 over the spring to address the issue. We also suggested the inclusion of language so that the Building Official would notify the First Responders (Police and Fire) that they have condemned a structure and give that address. A subject matter only hearing was held on the issue before the House Construction and Code Enforcement Committee on April 25th and Jeff Stehman testified. There was a lot of push back however from the City of Chicago.

HB 3773 – 10 YEAR BATTERY SMOKE DETECTORS

HB 3773 which would phase in 10 year battery smoke detectors over the next five years in older dwellings (pre-1988) which were not already required to have hard wired alarms, passed both the House and Senate overwhelmingly and was sent to the Governor on 06/23/17.

HB 2958 – COAL TAR SEALANT BAN

HB 2958 was originally introduced to bar coal tar sealants. An amendment was which deleted the original language and replaced it with a provision to allow non-home rule communities to adopt the ban. The bill passed the Consumer Protection Committee but because of mounting opposition from both business, labor and school groups, the bill was not called for a final House vote.
